React, Django

OTHERS

Miro, Git, Github, VSCode,
Agile Development, SQLite

Education

2020-2021

TECHNICAL

Nashville Software School

2010-2015

COLLEGE

University of Southern Mississippi

GPA: 3.4

Technical Experience

2020-21 Nashville Software School

Intensive hands-on 6 month full-stack development program creating applications in team based environments and individually using modern technologies. Technology Used:

- Single page applications with HTML, CSS, Javascript, Bootstrap
- Learned functional React including hooks and styling with ReactStrap
- Created server-side applications using Python and Django
- SQL Server database, writing database scripts and querying those databases
- Git and Github for version control

Technical Projects

2021 Forget Me Not

Django, React, Twilio

Forget Me Not is a full-stack SMS appointment reminder built using Django and React. The user can create an account, set a date and time to receive an SMS reminder, and then will receive the reminder at the specified time with a Google Maps link to their appointment location.

2020 Bout Buddy

React, HTML, CSS, ReactStrap

Bout Buddy is a UFC companion app that allows the user to record fight scores per round and compare against their friends. <https://github.com/ConnorBlakeney/front-end-capstone>

Professional Experience

2019-20 South Central Regional Medical Center (Laurel, MS)

Courier
